

CUNY Academic Commons - Feature #3672

Force captcha on existing contact forms

2014-11-20 10:51 AM - Matt Gold

Status:	Resolved	Start date:	2014-11-20
Priority name:	Normal	Due date:	
Assignee:	Boone Gorges	% Done:	0%
Category name:	WordPress Plugins	Estimated time:	0.00 hour
Target version:	1.7.4		
Description			
IT pointed out that spam is still being sent through contact forms on the Commons; here is one example: http://humanshell.net/contact/			
Regarding our work on http://redmine.gc.cuny.edu/issues/3520 , did that add CAPTCHAs to already-existing forms or force them into newly created forms? If the latter, can we try to force CAPTCHAs onto existing forms?

- Status changed from Assigned to Resolved
- Target version set to 1.7.4

This doesn't have anything to do with existing vs new forms. The problem is that the most recent upgrade to Contact Form 7 made certain object properties (like `\$form->form`) inaccessible by direct reference. Had to switch over to their getter/setter methods.
<https://github.com/cuny-academic-commons/cac/commit/bf51042a2aca517626612d729854a94b7a910f79>

This fix will be included in the next release, and is also up as a hotfix.
