Priority name:	Normal	Due date:

Description			
The Commons has 5,911 users. When one goes to the People page < http://commons.gc.cuny.edu/members/ > and filters for CSI, one sees 183 members. When one filters for Hostos, one sees 66 members.			
Are these numbers correct? They seem low to me.

Yes, these numbers are correct. At least, they match the results when querying the database directly.

Okay -- thanks.

Is there any way to produce a total listing of number of members by campus? I can start a new ticket if needed

Let's start a new ticket. I have questions about what it is that you want.
