Target version:	Future release		
Description			
The third step, to enable a 'Group Site,' does not have any information on why a group would or would not need a site. More information only appears once the user checks that he/she does want to enable the site.			
Add information about what a group site is and what groups use their sites for, or link to the Codex (http://codex.commonsc.gc.cuny.edu/2011/10/05/groups-and-group-blogs-and-bringing-content-together/)
