

# CUNY Academic Commons - Bug #4288

## Add Friend -1

2015-07-10 02:45 PM - Samantha Raddatz

<b>Status:</b>	Resolved	<b>Start date:</b>	2015-07-10
<b>Priority name:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Boone Gorges	<b>% Done:</b>	0%
<b>Category name:</b>	BuddyPress (misc)	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	1.8.5		
<b>Description</b>			
After clicking 'Add Friend' on the directory page ( <a href="http://commons.gc.cuny.edu/members/">http://commons.gc.cuny.edu/members/</a> ), a '-1' appears where the button was before (see red circle in attached screenshot). Instead, this should say 'Request sent' (see mockup attached).			

### History

#### #1 - 2015-07-10 05:56 PM - Boone Gorges

- Status changed from New to Resolved
- Target version set to 1.8.5

This is a really odd issue. It's caused by a weird combination of factors: a BuddyPress upgrade from a few months ago, along with the fact that we don't use BP\_User\_Query for our Members directory. This was causing BP to think, incorrectly, that the logged-in user was not friends with anyone in the Members directory, making it show the Add Friend button even though a friendship already existed. As such, there was a nonce mismatch when the friendship request was sent upon clicking the button.

I'm pretty sure that this points to a bug in `friends_check_friendship_status()` - it's not accounting for users of the legacy user query - but I'll let Ray decide whether (a) that's the case, and (b) it's worth fixing in BP.

For CAC, I've put a super weird workaround in place <https://github.com/cuny-academic-commons/cac/commit/fa996b3c8a275651b075982530ffd676dc3d1a28> which will restore buttons to their proper behavior.
