<b>Description</b>			
After 1.1 release, looks like some pages display images correctly, while others don't. Newer pages seem to display hyperlinks rather than pages, and the hyperlinks don't link anywhere.			
Example of a page that works: <a href="http://commons.gc.cuny.edu/wiki/index.php/EPortfolios_Committee_WIKI">http://commons.gc.cuny.edu/wiki/index.php/EPortfolios_Committee_WIKI</a>			
Example of a page that doesn't work: <a href="http://commons.gc.cuny.edu/wiki/index.php/How_the_Internet_Works">http://commons.gc.cuny.edu/wiki/index.php/How_the_Internet_Works</a>
