Fixed in <https://github.com/castiron/cac/commit/d62d599e8cb0c8f0929c667f93a6eb2cad5ec4>. Thanks Ron.

One (very small) suggestion. I had to re-save the widget settings to make the query return any posts. Maybe you don't have a default orderby value? Not a big deal, but might be worth considering for upgraders.
