Description

At the last few team and subcommittee meetings, we all agreed that we should deprecate and eventually remove the wiki. Let's use this ticket to organize that work.

To start, we will need to move selected content from the wiki -- like the CUNY Digital Humanities Resource Guide -- from the wiki to another space -- probably a blog.

We may want to contact creators of other content on the wiki to see whether they want our help in moving content.

We will also have to reframe our help workflow, since much of it is based on the wiki FAQs.
