CUNY Academic Commons - Bug #4761

Forum Posts, Slow to Submit

2015-10-09 09:54 AM - Luke Waltzer

Status:	Resolved		**Start date:**	2015-10-09
Priority name:	Normal		**Due date:**	
Assignee:	Boone Gorges		**% Done:**	0%
Category name:	Group Forums		**Estimated time:**	0.00 hour
Target version:	1.8.13			

Description

I've been posting in forums for the past couple of days and have noticed it's taking 3-5 seconds for posts to go through after I submit them. I don't have baseline data on load times and performance here, but that **seems** longer than it used to take.

Possible to put on the roadmap an assessment of load times there and perhaps some exploration of ways to speed things up a bit?

Fwiw, as I'll be using to Commons more intensively now that I'm at the GC, and would be happy to take on a more significant UX review role... ready to serve when the time is right.

- Target version set to 1.8.14

Thanks for the report, Luke. I'll take some time to look into it.

#2 - 2015-10-11 11:06 PM - Boone Gorges

- Status changed from New to Resolved

- Target version changed from 1.8.14 to 1.8.13

I had to test some forum-related stuff and noticed how awful this was, so I decided to look into it sooner rather than later.

The problem is that bbPress is triggering a topic/reply count recalculation every time a reply is posted. I don't know why this just started becoming apparent recently - I took a quick look at the bbPress logs, but it seems like this "feature" has been baked into bbPress since time immemorial.

I've put a truly unholy workaround into place in https://github.com/cuny-academic-commons/cac/commit/dd7dd9cdd64b2182f9977265c4ac56f1ad8ec098 and I'm going to ship it in 1.8.13. Luke, can I ask you to test again after tonight's release, and let me know whether you notice a difference?

#3 - 2015-10-11 11:12 PM - Matt Gold

Wow. Thank you for bringing this to our attention, Luke
