

## CUNY Academic Commons - Bug #4841

### Font style on "Friends" Page seems different

<b>Description</b>			
I noticed that the styling of the Friend's page seems a little off and not in keeping with the rest of styling on the site pages. Maybe some CSS is off somewhere?

Scott, can you provide more details here? I assume you mean pages like [commons.gc.cuny.edu/members/boonebgorges/friends/](https://commons.gc.cuny.edu/members/boonebgorges/friends/)? When you say it's "different", what kinds of pages are you comparing it to? Can you provide screenshots that may help to make it clearer?

Sorry - must have been my browser. I am not seeing it anymore. Before, it looked like the font-style had changed. Maybe just looks different since it is a single-spaced list. I am closing this one.
