Description			
I just tried to add a 549Kb PDF to a forum post and the attachment failed with the error: Upload Errors: social-paper.pdf: File exceeds allowed file size.			
This is very small for a file size limit . . . did it get reset sometime recently by mistake?

I've bumped the file limit to 1024kb; let me know if this should be higher.

For comparison's sake, I checked cdev's value and the forum attachment limit there was also 512kb.
