

CUNY Academic Commons - Feature #519

TOC for individual docs - for new BP "wiki-like" plugin

2010-12-28 07:29 PM - scott voth

Status:	Assigned	Start date:	2010-12-28
Priority name:	Low	Due date:	
Assignee:	Boone Gorges	% Done:	0%
Category name:	BuddyPress Docs	Estimated time:	6.00 hours
Target version:	Future release		
Description			
This might just be on a "wish list" - but is it possible to simulate MW's Table of Contents functionality for individual pages? Automatic generation of a header item for each document "section" entered...			

History

#1 - 2010-12-29 08:02 AM - Boone Gorges

- Status changed from New to Assigned
- Priority name changed from Normal to Low
- Target version set to 1.2

This is possible but I will likely have to build it from scratch. I'm going to mark it low priority for the 1.2 milestone, and bump it to the next version if things stretch on too long.

#2 - 2011-02-18 01:26 PM - Boone Gorges

- Target version changed from 1.2 to 1.3

I had a little look, and this is going to be something of a doozy. Bumping to 1.3 for the moment.

#3 - 2011-11-15 08:50 AM - Boone Gorges

- Target version changed from 1.3 to 1.4

I have this partially done, but it needs work before it can be released.

#4 - 2012-07-02 12:49 PM - Boone Gorges

- Target version changed from 1.4 to Future release
- Estimated time set to 6.00 h

I've deprioritized this feature because of some more pressing CBox-related fixes for BuddyPress Docs.

#5 - 2015-11-09 05:54 PM - Boone Gorges

- Category name changed from BuddyPress (misc) to BuddyPress Docs
