<b>Description</b>			
Hi Boone,			
I have a few changes for the MESTC WordPress Theme and I was wondering if they could make it into the March 11 updates.			
MESTC.jpg should replace the file with the same name in /mestc/library/images/ MESTCBig.jpg should replace the file with the same name in /mestc/library/images/ template-home-page.php should replace the file with the same name in /mestc/ default.css should replace the file with the same name in /mestc/library/styles/			
Thanks so much, Alex

Hey Boone, it doesn't look like the updates (at least the images--not sure about the theme) aren't yet reflected on the site. Any ideas why? Thanks, Alex

Hi Alex - Weird, I don't know how that happened. The CSS and PHP changes were in the changeset, but not the images. I've redeployed the images in <https://github.com/cuny-academic-commons/cac/commit/76794738b16f6f7b030db910836dc14f4263ec64>. Can you have another look?
