

CUNY Academic Commons - Bug #535

Unable to Activate "Apture" Plugin on new blog

2011-01-06 09:58 PM - scott voth

Status:	Resolved	Start date:	2011-01-06
Priority name:	Low	Due date:	
Assignee:	Boone Gorges	% Done:	0%
Category name:	WordPress (misc)	Estimated time:	0.00 hour
Target version:	1.1.10		
Description			
I've tried this on several blogs and cannot activate the plugin if it hasn't been activated before. When I try, I get directed to the first blog I created on the Commons. Not sure why... WP 3.0 ??			
Also - just wanted to mention, it would be good to upgrade this plugin, as there are many new Apture features.			

History

#1 - 2011-02-10 05:55 PM - Boone Gorges

- Category name set to WordPress (misc)
- Status changed from New to Assigned
- Assignee set to Boone Gorges
- Priority name changed from Normal to Low
- Target version set to 1.2

The plugin has been removed from the wordpress.org plugin repository. I assume this is because it is outdated and the authors didn't want to keep updating it.

The plugin does not look very big, so I might try to take a look at it to see if I can fix it myself.

#2 - 2011-02-21 03:32 PM - Boone Gorges

- Status changed from Assigned to Hold
- Target version changed from 1.2 to 1.1.10

Scott, I've made some changes to the plugin that will, I think, make it work. I'm going to bump this ticket back to the 1.1.10 milestone so that you can test the changes sooner. I'll let you know when it's ready to test.

#3 - 2011-03-08 04:11 PM - Boone Gorges

- Target version changed from 1.1.10 to 1.1.11

Scott, my fixes have gone live on 1.1.10. Can you check them on the production site and see if it's doing what you'd expect?

#4 - 2011-03-08 06:52 PM - scott voth

Hi Boone - Looks good - I was able to activate the Apture plugin and configure. I see the icons on the page and post edit panels. Thanks!

#5 - 2011-03-08 08:45 PM - Boone Gorges

- Status changed from Hold to Resolved
- Target version changed from 1.1.11 to 1.1.10

Great, thanks!
