Description			
Hi Ray,			
I'm a sitewide admin on nycdh.org. I just requested membership in a private group and I was taken to a page that had two things wrong with it:			
1. It still said "Request Membership," so I don't know whether my request went through			
2. the page content was sort of loaded within a frame			
Please see the attached screenshot. It seems like this could be a CBOX issue.

Fixed.

Was an issue with the CBOX Theme and not porting a fix over from the BuddyPress group home template. I've committed the fix [here](#).
