<b>Description</b>			
Hi - Sara Vogel reports that the VeriteCo Timeline plugin is no longer working. It hasn't been updated in 4 years. Can we please install the "Knight Lab Timeline" ( <a href="https://wordpress.org/plugins/knight-lab-timelinejs/">https://wordpress.org/plugins/knight-lab-timelinejs/</a> ). It is actively supported (last updated 2 months ago), has a 5 star rating, and have 2000+ active installs. Authors are Miguel Peixe and zacwise and Knight Labs.  I think the old plugin still works on old sites - but for new implementations the UI just hangs.  Knight Lab Timeline provides a way to embed timeline.js content into wordpress with shortcodes.
