<b>Description</b>			
I just typed "CUNY games" then History into the search box and zero results were returned - see attached image. I've tried from Chrome and Firefox on a PC (at home). Should I report to GC IT as well?

This is working for me . Can you try again when you have a chance?

Still happening , but only when I am using Chrome and searching from the <http://commons.gc.cuny.edu/> page. I'm getting 502 Bad Gateway - The server returned an invalid or incomplete response.

Firefox works.

Thanks for the 502 report, Marilyn. Can you please add it to the hosting issues doc in our Commons team group? thanks.

The search bar is working for me in Chrome on a Mac. Is this happening to you on multiple computers and multiple networks? and are you on a mac, pc, tablet, etc?
