Target version:	1.1.11		
Description			
In response to a forum request for a plugin that would allow tags to be added to comments, I did a search in the plugin repo and found WP Comment Remix . Seems like it fits the bill, though I'm not sure whether it is compatible with our system and/or whether it is written well. Can you take a look at it to vet it, and if it looks okay, can you add it?			

History

#1 - 2011-03-16 11:28 AM - Boone Gorges

- Tracker changed from Bug to Feature

#2 - 2011-03-16 11:28 AM - Boone Gorges

- Status changed from Assigned to Resolved

- Priority name changed from Normal to Low

The plugin looks fine. Added in <https://github.com/castiron/cac/commit/cfa11e80802b07923b818764a44e780cd2d437cf>
