- Assignee changed from Boone Gorges to Raymond Hoh

Ray, if you have a chance, will you have a look at this plugin and see if it actually works? If so, go ahead and commit it. (If you don't find a chance, no biggie - I will have a look myself.)

Need a BackType API key to use the plugin:
<http://www.backtype.com/developers>

Do you want to grab a key for CUNY, or should I get one for my own testing?

#3 - 2011-04-21 08:59 AM - Matt Gold

Hi Ray, -- Can you grab a key using the commons@gc.cuny.edu address? I'll forward any messages that come in to you. Thanks!

#4 - 2011-04-21 09:12 AM - Matt Gold

By the way, we may already have an API key for that email address. If you get that kind of message, please use the password reminder tool if they have one and I'll forward it on to you.

#5 - 2011-04-22 04:31 AM - Raymond Hoh

Should this type of info go on Basecamp?

#6 - 2011-04-22 09:40 AM - Matt Gold

Thanks for creating the account, Ray! Yes, please post anything related to sensitive issues like passwords on a Basecamp writeboard. In this case, I've done that for you. Thanks!

#7 - 2011-04-24 04:15 PM - Raymond Hoh

- Status changed from Assigned to Resolved

I lightly tested the Twitter feature of BTCNew and it worked for me.. Did not test any of the other website providers though, but I assume they work based on the feedback from [some of the other people using it](#).

Added WP Plugin - BTCNew:
