

CUNY Academic Commons - Bug #7217

BP Event Organiser issues with WP 4.7 and Shortcake

2016-12-21 11:57 PM - Raymond Hoh

Status:	Resolved	Start date:	2016-12-21
Priority name:	Normal	Due date:

Target version:	1.10.6		
Description			
<p>Shortcake 0.7.0 introduced an "Add Post Element" button next to the existing "Add Media" button.</p> <p>When adding or editing an event, this button doesn't work correctly on the frontend and I don't think it is particularly useful for event descriptions. Given these reasons, I removed the button in the following commit: https://github.com/cuny-academic-commons/bp-event-organiser/commit/9f4ea34cd63c255411c1bcad853e87ee0191f09a</p> <p>I also added some fixes for WordPress 4.7 when attempting to add a tag or category to an event: https://github.com/cuny-academic-commons/bp-event-organiser/commit/75b3411804427dce6bc198c9616c38686c130d35</p> <p>This isn't applicable to us since we have disabled both of these options on CAC.</p> <p>Adding this ticket for posterity!</p>
