

## CUNY Academic Commons - Bug #7629

### Coupled Group/Site email generation Issue

2017-02-06 02:02 PM - Laurie Hurson

<b>Status:</b> Duplicate	<b>Start date:</b> 2017-02-06
<b>Priority name:</b> Normal	<b>Due date:</b>
<b>Assignee:</b> Boone Gorges	<b>% Done:</b> 0%
<b>Category name:</b> BuddyPress (misc)	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Description</b> Faculty member's site is coupled with group (both linked below) but public posts on the site are not generating an email to all site/group users.  Group: [[ <a href="https://commons.gc.cuny.edu/groups/msh-334-spring-2017-music-since-1945/">https://commons.gc.cuny.edu/groups/msh-334-spring-2017-music-since-1945/</a> ]]  Site: [[ <a href="https://msh334spring2017.commonsgc.cuny.edu/">https://msh334spring2017.commonsgc.cuny.edu/</a> ]]	
<b>Related issues:</b> Is duplicate of CUNY Academic Commons - Bug #7376: automatic forwarding of bl... <b>Rejected</b> <b>2017-01-10</b>	

#### History

##### #1 - 2017-02-06 04:01 PM - Boone Gorges

- Is duplicate of Bug #7376: automatic forwarding of blog posts not working added

##### #2 - 2017-02-06 04:02 PM - Boone Gorges

- Status changed from New to Duplicate

Hi Laurie - Thanks for opening the ticket.

The issue in this case is that the site's privacy level has been set to "Discourage search engines..." at Dashboard > Options > Reading. This setting prevents blog actions (like publishing new posts) from creating new activity items, since those activity items would then be visible and potentially trackable in other places on the Commons. See [#7376](#) for some prior discussion.

For the time being, my suggestion is to change the privacy setting to "Allow search engines...". Our team will continue to investigate the broader issue in [#7376](#).

Ahhh. Thanks, Boone. Didn't realize it was such a simple fix - sorry. Good to know about privacy levels and email generation between site/group.

thanks!  
Laurie
