Description

In bp-nelo/footer.php, there is the following line:

```
<?php $tn_wpmu_goggle_code = get_option('tn_wpmu_goggle_code'); echo stripslashes($tn_wpmu_goggle_code); ?>
```

I couldn't find any reference to "tn_wpmu_goggle_code" on CAC and am wondering if it is safe to remove this.

Even if it is relevant, this line of code should be moved above the </body> line.

I found the same thing. Looks like it may have been from the original theme on which the Commons theme is based.

Fixed in <https://github.com/castiron/cac/commit/83da56112d6d408d1e4de4d532fd670316710e20>
