Description

I received two email notifications this morning in which Steve Real replied to this thread -- https://commons.gc.cuny.edu/groups/cac-community-team-project-planning/forum/topic/mystery-help-page/

I've attached a screenshot of one of the RBE notifications I received (plain text version of email attached in addition to the screenshot)

Oddly, on the forum thread itself, Steve's replies do not appear and the timestamp says it was last updated 7 months ago. And then it mentions a "hidden voice," which is something I've never seen.

So, lots of weirdness going on

- Assignee changed from Boone Gorges to Raymond Hoh

Fairly sure this is testing taking place on the dev server, so it's not something to worry about. Ray, can you verify?

#2 - 2017-05-10 11:18 AM - Matt Gold

- File original_msg (1).txt added

Hmmm. that would make sense. I'm now getting notifications of Steve's replies to a different thread

#3 - 2017-05-10 12:38 PM - Raymond Hoh

- Status changed from Assigned to Rejected

Yup, Steve is testing the quote feature on the development server.

I can see how you would get confused Matt as the development server uses the exact same URLs as the production server.

Perhaps I can add some content to emails on the development server to avoid this confusion.

Okay -- thanks, Ray. Yes, some notice on the email notifications would be helpful. thank you!
