Description			
Hi Boone,			
It's that time of year again! I've set up a site on the Commons at http://preludenyc17.commonsgc.cuny.edu . I'd like to have http://preludenyc.org point to this domain instead of http://preludenyc16.commonsgc.cuny.edu .			
Could you also make the Advanced Custom Fields Pro plugin and the Prelude.16 theme available for the prelude17 website?			
Thanks so much, Alex

Could you also make the Advanced Custom Fields Pro plugin and the Prelude.16 theme available for the prelude17 website?

This is done. Do you need a bit of time to set this up before I change the preludenyc.org URL, or should I switch it right away?

#2 - 2017-07-20 06:05 PM - Alex Hills

Thanks! I'll make a couple quick content edits and let you know when it's ready to go up.

#3 - 2017-07-20 06:16 PM - Alex Hills

Ok, I have made the edits and we're ready for the switch.

Thanks!

#4 - 2017-07-21 08:21 AM - Boone Gorges

I've made the change! Please confirm.

Hi Boone,

I just checked the domains and they seem to still be pointing to where they were before. Is there something that I need to do on my end to make the change take effect?

Thanks,
Alex

Can you please clarify what you mean by "the domains"? The page at <http://preludenyc.org/> is showing content from 2017 (though the <title> tag reads incorrectly).

#8 - 2017-07-22 01:52 PM - Alex Hills

Hi, sorry for the confusion. It seems like preludenyc.org is still loading <http://preludenyc16.common.gc.cuny.edu>. We had updated the content on that site to look like P17 and then I mimicked it on <http://preludenyc17.common.gc.cuny.edu> so that there would be a seamless transition. I've rolled the P16 splash page back to show P16 content so that it's easier for us to check whether the change has happened or not. Let me know if this is making sense. Thanks!

#9 - 2017-07-22 02:15 PM - Boone Gorges

Ah, thanks for the additional details. There was an error in the plugin that was causing certain edits to fail, and I didn't realize it because of the mirrored 2017 content. The issue should now be fixed.
