

CUNY Academic Commons - Bug #8702

Homepage slider doesn't offer option to move through slides

2017-09-14 09:24 PM - Matt Gold

Status:	Resolved	Start date:	2017-09-14
Priority name:	Normal	Due date:	
Assignee:	Boone Gorges	% Done:	0%
Category name:	Homepage Slides	Estimated time:	0.00 hour
Target version:	1.11.13		
Description			
<p>In the past, when one moused over the left and right margins of the homepage slider, a grayish modal would appear that, when clicked, would move the slides forward or backwards.</p> <p>When I look at the homepage now on Mac/Chrome, I no longer see those modals on mouseover and I can no longer cycle through the slides, which seems problematic. Is this happening for others?</p>

- Status changed from Assigned to Resolved
- Target version set to 1.11.13

The buttons are there, they're just too short. I don't know why this is happening - it's not happening locally, so I assume it's a side-effect of some aspect of the images or other content on the production site.

In <https://github.com/cuny-academic-commons/cac/commit/666e11b7c1555e887dcf1918a0c62f47729a567e> I added some explicit styling that seems to fix the problem. This is live on the production site (hard refresh).

Thanks, Boone. Confirmed that this is working now.
