Description			
Hi All,			
I'd like to experiment with creating a PressForward publication on the Commons that utilizes their turnkey theme. The theme is on github. The readme page is here: https://github.com/PressForward/pressforward-turnkey-theme/blob/e2fa223072f63f7879cece2d33aa2a5b21e0b8e5/README.md . I think that the theme makes the plugin more useful, and before I suggest it for others, I'd like to set up a site to experiment with myself to see whether or not it presents any problems.			
I'd like to launch it on a dev site first to play around with and see if it presents problems before potentially releasing to more people to use.			
Thanks!

Sure thing. Can you please set up a test site on the Commons and let me know the URL, so I can enable it there after release?

Yes. The test site is: <https://pftest.commons.gc.cuny.edu>.

Thanks so much!

Best,
Lisa

- Status changed from New to Resolved

- Target version set to 1.12.2

Sorry that this got lost in the shuffle of our 1.12 release, Lisa. It'll be part of our 1.12.2 release on the 21st.

Added, and made available on pftest. You should now be able to activate it there.
