<b>Description</b>			
Hi Ray,			
During a meeting with the MLA, they mentioned that they were implementing RBE for the Humanities Commons. I mentioned our recent work to make nice email addresses for groups and they were very interested. How hard would it be to package that up for release as a plugin and/or to add it to the RBE plugin?

I mentioned that I created a plugin for this here:

Plugin is available on Github:

Thank you, Ray!

Would it be worth releasing to the WP repo? Any reason not to do that?
