

CUNY Academic Commons - Bug #9107

Can't add group to non-CUNY sign-up code

2018-01-23 09:28 AM - Matt Gold

Status:	Resolved	Start date:	2018-01-23
Priority name:	Normal	Due date:	
Assignee:	Boone Gorges	% Done:	0%
Category name:	Non-CUNY sign up codes	Estimated time:	0.00 hour
Target version:	1.12.7		
Description			
Hi Boone, I'm trying to add this group -- https://commons.gc.cuny.edu/groups/transpacific-spring2018-gc-nyu/ -- to the "Kandice Chuh class" non-CUNY sign up code, but when I enter transpacific-spring2018-gc-nyu or the full URL, neither works. I don't know if there is supposed to be an autosearch as I begin typing, but basically I am pasting and then hitting update. When the page reloads, there is no group listed

- Target version set to 1.12.7

Thanks for the report. Yes, there is supposed to be autosuggest here, and it's not working due to the fact that the cac-non-cuny-signup plugin isn't enqueueing its JS/CSS assets in a way that's SSL-sensitive. So your browser is blocking them from loading, and the picker is broken.

Fixed in <https://github.com/cuny-academic-commons/cac/commit/fbb3441b30f355a4f85b55d2a2e526bae4579c34>. A hard refresh after today's release should resolve it for you. (I'll verify.)

great -- thanks!

#3 - 2018-01-23 11:56 AM - Boone Gorges

Turns out that the bundled autocomplete library was also broken, so I rewrote it to use WP's jquery-ui-autocomplete.

<https://github.com/cuny-academic-commons/cac/commit/62617ca8c78ada8fc82707565f1168f0a6c8ea33> Appears to be working properly now.
