Description			
How do I prevent the date I posted showing on posts? (https://historyprogram.commonsgc.cuny.edu)			
I thought I'd fixed this problem with this custom CSS, but no:			
<pre>.entry-meta .byline { display: none; }</pre>			
<pre>footer.entry-footer { display: none; }</pre>

Hi Marilyn,

Can you take a screenshot of the places where the date is appearing? I can write some CSS once I know what needs to be hidden.

If you're talking about the date located next to the comment bubble on the frontpage, use this:

```
abbr.published {display:none;}
```

Ray -

Thanks! This did work to remove the date. Is there a way for me to remove that gray bar with the pop-up bubble entirely?

I really appreciate you replying to this!

#4 - 2018-03-30 12:39 PM - Raymond Hoh

Replace the above with this:

```
body.home .entry-meta {display:none;}
```

#5 - 2018-04-04 03:16 PM - Marilyn Weber

Worked perfectly, thank you! Feel free to close. Appreciate your patience!

#6 - 2018-04-04 03:55 PM - Raymond Hoh

- Category name set to WordPress (misc)

- Status changed from Assigned to Resolved

- Target version set to Not tracked

Thanks for confirming, Marilyn!
