Sync is complete.

It appears that files uploaded to jitpstaging were from May 2018 only; no files existed from Feb, Mar, Apr, or Jun. Let me know if this sounds any alarms for you, or if you see anything missing on your end. (Note that, as before, files will not be visible in the Dashboard > Media area; they will, however, be available at the jitp.commons... URL.)

Boone... a new image was uploaded to the staging site since you did the sync... I assume that this means the sync now needs to happen for the June 2018 upload folder. I'd apologize for the extra labor, but it's Matt's fault. :-P

Ha. I've done the June sync.
